We are a company specialized in Iris Flower cultivation with a large selection of colors and varieties.

Have a look at our new production:

<http://www.en.odina.it>

Our highest quality flowers are cultivated in pot, well-formed and ready for sale all year around. While the best period to buy the rhizomes is from July to September.

We can produce big quantities on request, the order should be placed in August of the prior year.

A handwritten signature in blue ink, reading "Paolo Trenti". The signature is fluid and cursive, with a large loop at the beginning of the first name.

Pink – Blue

63 Conjunction

Lilac – Purple with White Crest

A1 motorway Florence-Rome, exit Valdarno, turn right towards Terranuova Bracciolini. Follow the signs for Loro Ciuffenna. At the Loro Ciuffenna roundabout proceed towards Castelfranco di Sopra.

Before Castelfranco you will come to the village of Malva: drive past it and after about 1 km you will come to a bend and sign for Odina Agriturismo. A hard-surfaced road (dirt road for the last 500m) takes you up the hillside; drive for about 3km until you reach us.
